Data Protection Policy for Schools

Legal Obligations

Recital 74 of the UK General Data Protection Regulation (UK GDPR) states that.....

'The responsibility and liability of the controller for any processing of personal data carried out by the controller or on the controller's behalf should be established. In particular the controller should be obliged to implement appropriate and effective measures and be able to demonstrate the compliance of processing activities with the Regulation, including the effectiveness of the measures. Those measures should take into account the nature, scope, context and purposes of the processing and the risk to the rights and freedoms of natural persons'

To this end, the School and the School Governing Body has adopted the Policy as specified below.

Scope

An essential activity within Dormston School is the requirement to gather and process information about its students, staff, parents and other individuals who have contact with the school, in order to enable it to provide education and other associated functions.

In addition, there may be a legal requirement to collect and use information to ensure that the school complies with its statutory obligations.

The UK GDPR defines special category information as 'information about an individual's racial or ethnic origin, political opinions, religious or philosophical beliefs, trade union membership, health, sex life or sexual orientation and genetic and hiometric data'.

Before processing 'special category' information Dormston School will identify and document the lawful basis for processing this information. Dormston School will only process special categories of personal information in certain situations.

(c) Copyright of the Corporate Information Governance Team (CIGT) 2023 Data Protection Policy v5.4 Page 3 of 8 This will be done in accordance with Data Protection Law and other related government legislation.

This policy applies to employees and students of Dormston School. It also applies to temporary staff, volunteers and Governors working on behalf of the school.

Dormston School and the School Governing Body – acting as custodians of personal data – recognise their moral duty to ensure that it is handled properly and confidentially at all times, irrespective of whether it is held on paper or by electronic means. This covers the whole lifecycle, including:

- The obtaining of personal data;
- The storage and security of personal data;
- The use of personal data;
- The disposal/destruction of personal data.

Dormston School and the School Governing Body also has a responsibility to ensure that data subjects have appropriate access to details regarding personal information relating to them.

Objectives

By following and maintaining strict safeguards and controls, Dormston School and the School Governing Body will:

- Acknowledge the rights of individuals to whom personal data relate, and ensure that these rights may be exercised in accordance with Data Protection Law:
- Ensure that individuals are fully informed about the collection and use of personal data through the publication of the school's Privacy Notice;
- Collect and process personal data which is adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed;
- Ensure that adequate steps are taken to ensure the accuracy and currency of data;
- Ensure that for all personal data, appropriate security measures are taken both technically and organisationally – to protect against damage, loss or abuse;

 Ensure that the movement of personal data is done in a lawful way – both inside and outside the organisation and that suitable safeguards exist at all times.

Achieved by

In order to support these objectives, the Dormston School and the School Governing Body will:

- Have a "Senior Information Risk Owner" (SIRO) to ensure that there is accountability and that Information Risk is recognised at a Senior Level;
- Have a designated "Data Protection Officer" (DPO) to meet the school's obligations under Article 37 of UK GDPR
- Ensure that all activities that relate to the processing of personal data have appropriate safeguards and controls in place to ensure information security and compliance with the Data Protection Law;
- Ensure that all contracts and service level agreements between Dormston School and external third parties (including contract staff – where personal data is processed) include the relevant Data Protection clauses and appropriate Organisational and Technological measures will be put in place to safeguard the data;
- Ensure that all staff (including volunteer staff) acting on behalf of Dormston School understand their responsibilities regarding information security under the Act, and that they receive the appropriate training/instruction and supervision so that they carry these duties out effectively and consistently and are given access to personal information that is appropriate to the duties they undertake;
- Ensure that all third parties acting on Dormston School behalf are given access to personal information that is appropriate to the duties they undertake and no more;
- Ensure that any requests for access to personal data are handled courteously, promptly and appropriately, ensuring that either the data subject or their authorised representative have a legitimate right to access under Data Protection Law, that their request is valid, and that information provided is clear and unambiguous;
- Ensure that all staff are aware of the Data Protection Policy and Guidance;.
- Review this policy and the safeguards and controls that relate to it annually to ensure that they are still relevant, efficient and effective.
- This Policy and Procedure and the Subject Access Information material will be made available in other formats where necessary.

Biometric recognition systems

Where we use pupils' biometric data as part of an automated biometric recognition system (for example, pupils use finger prints to receive school dinners instead of paying with cash, we will comply with the requirements of the Protection of Freedoms Act 2012.

Parents/carers will be notified before any biometric recognition system is put in place or before their child first takes part in it. The school will get written consent from at least 1 parent or carer before we take any biometric data from their child and first process it.

Parents/carers and pupils have the right to choose not to use the school's biometric system(s). We will provide alternative means of accessing the relevant services for those pupils. For example, pupils can pay for school dinners using a school issued card at each transaction if they wish.

Parents/carers and pupils can withdraw consent, at any time, and we will make sure that any relevant data already captured is deleted.

As required by law, if a pupil refuses to participate in, or continue to participate in, the processing of their biometric data, we will not process that data irrespective of any consent given by the pupil's parent(s)/carer(s).

Where staff members or other adults use the school's biometric system(s), we will also obtain their consent before they first take part in it, and provide alternative means of accessing the relevant service if they object. Staff and other adults can also withdraw consent at any time, and the school will delete any relevant data already captured.

CCTV

We use CCTV in various locations around the school site to ensure it remains safe. We will follow the ICO's guidance for the use of CCTV, and comply with data protection principles.

We do not need to ask individuals' permission to use CCTV, but we make it clear where individuals are being recorded. Security cameras are clearly visible and accompanied by prominent signs explaining that CCTV is in use.

Any enquiries about the CCTV system should be directed to Jayne Elliott, Deputy Head – Pastoral.

Photographs and videos

As part of our school activities, we may take photographs and record images of individuals within our school.

We will obtain written consent from parents/carers for photographs and videos to be taken of pupils for communication, marketing and promotional materials.

Where we need parental consent, we will clearly explain how the photograph and/or video will be used to both the parent/carer and the pupil. Where we don't need parental consent, we will clearly explain to the pupil how the photograph and/or video will be used.

Any photographs and videos taken by parents/carers at school events for their own personal use are not covered by data protection legislation. However, we will ask that photos or videos with other pupils are not shared publicly on social media for safeguarding reasons, unless all the relevant parents/carers (or pupils where appropriate) have agreed to this.

Where the school takes photographs and videos, uses may include:

- > Within school on notice boards and in school magazines, brochures, newsletters, etc.
- Outside of school by external agencies such as the school photographer, newspapers, campaigns
- ➤ Online on our school website or social media pages

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further.

When using photographs and videos in this way we will not accompany them with any other personal information about the child, to ensure they cannot be identified.

Please follow this link to the <u>ICO's website</u> which provides further detailed guidance on a range of topics including individual's rights, exemptions from the Act, dealing with subject access requests, how to handle requests from third parties for personal data to be disclosed etc.

Version Control

This policy will be evaluated on a regular basis. Next review date August 2024. (c) Copyright of the Corporate Information Governance Team (CIGT) 2023 Data Protection Policy v5.4 Page 7 of 8
