October 2023

**Year 10 GCSE Resistant Materials/Graphics Groups**

Dear Parents/Carers,

**RE: VR and Careers Workshop**

We have been given the exciting opportunity to engage in a new initiative called 'Casting My Future' which brings an insight in to careers in engineering. Next Gen Makers are working in partnership with the Cast Metals Federation to promote engineering careers in Cast Metals Engineering.

On Tuesday 7<sup>th</sup> November 2023, during normal RM lessons, students will take part in an innovative Virtual Reality Experience and have a career talk by a representative from Next Gen Makers. Your son/daughter will need to bring their smartphone to school as the VR Experience will be accessed by their phone and a VR headset (which will be provided).

**Students studying Graphics will also be included in the session and they should join the Period 2 lesson in C4. They will need to check with their normal subject teacher, if there is work they need to catch up on.**

If you have any questions regarding this session, please contact myself or Mr Gallant.

Yours sincerely

*L. Dawes*
